PART 1 AUGUST 1988

PAGE

COUVREUR, G., SADAK, A., FORTIER, B. and DUBREMETZ, J. F. Surface antigens of *Toxoplasma gondii* 1

MOUNTFORD, A. P., COULSON, P. S. and WILSON, R. A. Antigen localization and the induction of resistance in mice vaccinated with irradiated cercariae of *Schistosoma mansoni* 11

AMBROSE, N. C. and RILEY J. Light microscope observations of granulomatous reactions against developing *Porocephalus crotali* (Pentastomida: Porocephalida) in mouse and rat 27

GARDNER, R. A. and MOLYNEUX, D. H. *Schizotrypanum* in British bats . . 43

WHITELAW, D. D., GARDINER, P. R. and MURRAY, M. Extravascular foci of *Trypanosoma vivax* in goats: the central nervous system and aqueous humor of the eye as potential sources of relapse infections after chemotherapy . . 51

GIBSON, W. C., DUKES, P. and GASHUMBA, J. K. Species-specific DNA probes for the identification of African trypanosomes in tsetse flies 63

ROTHSTEIN, N., STOLLER, T. J. and RAJAN, T. V. DNA base composition of filarial nematodes 75

DAVENPORT, T. R. B., LEE, D. L. and ISAAC, R. E. Immunocytochemical demonstration of a neuropeptide in *Ascaris suum* (Nematoda) using an antiserum to FMRFamide 81

WATSON, H., LEE, D. L. and HUDSON, P. J. Primary and secondary infections of the domestic chicken with *Trichostrongylus tenuis* (Nematoda), a parasite of red grouse, with observations on the effect on the caecal mucosa . . . 89

SCOTT, MARILYN E. Predisposition of mice to *Heligmosomoides polygyrus* and *Aspiculuris tetraptera* (Nematoda) 101

JACKSON, HELEN C. and TINSLEY, R. C. Environmental influences on egg production by the monogenean *Protopolystoma xenopodis* 115

SHIWAKU, K., CHIGUSA, Y., KADOSAKA T. and KANEKO, K. Factors influencing development of free-living generations of *Strongyloides stercoralis* . . . 129

RENAUD, F. and GABRION, C. Speciation of cestoda. Evidence for two sibling species in the complex *Bothrimonus nylandicus* (Schneider 1902) (Cestoda: Cyathocephalidea) 139

GOMEZ-BAUTISTA M. and BARRETT, J. Cysteine metabolism in the cestode *Hymenolepis diminuta* 149

RISHI, A. K. and MCMANUS, D. P. Molecular cloning of *Taenia solium* genomic DNA and characterization of taeniid cestodes by DNA analysis . . . 161

LAWSON, J. R., ROBERTS, M. G., GEMMELL, M. A. and BEST, S. J. Population dynamics in echinococcosis and cysticercosis: economic assessment of control stategies for *Echinococcus granulosus*, *Taenia ovis* and *T. hydatigena* . . 177

Trends and Perspectives
ROGERS, D. J. A general model for the African trypanosomiases . . . 193

PART 2 OCTOBER 1988

HIGGS, S. and NOWELL, F. Laboratory studies with clones of *Eimeria hungaryensis*, a parasite of the wood mouse *Apodemus sylvaticus* 213

ROWLAND, M. and BOERSMA, ERICA. Changes in the spontaneous flight activity of the mosquito *Anopheles stephensi* by parasitization with the rodent malaria *Plasmodium yoelii* 221

WEI-DONG XIE. Propagation of *Cystosporogenes operophtera* (Microspora), a microsporidian parasite of the winter moth, *Operophtera brumata*, in a *Spodoptera frugiperda* cell line 229

OCHANDA, H., YOUNG, A. S, MUTUGI, J. J., MUMO, J. and OMWOYO, P. L. The effect of temperature on the rate of transmission of *Theileria parva parva* infection to cattle by its tick vector, *Rhipicephalus appendiculatus* . . 239

LASTRE, MIRIAM, CESBRON, J. Y., PEREZ, O., HENRY, D. OUAISSI, A., DISSOUS, C. and CAPRON, A. *Brugia malayi* microfilariae share epitopes with *Aedes aegypti* 247

VELGE, P., OUAISSI, M. A., CORNETTE, J., AFCHAIN, D. and CAPRON, A. Identification and isolation of *Trypanosoma cruzi* trypomastigote collagen-binding proteins: possible role in cell–parasite interaction 255

TURNER, C. M. R., BARRY, J. D., MAUDLIN, I. and VICKERMAN, K. An estimate of the size of the metacyclic variable antigen repertoire of *Trypanosoma brucei rhodensiense* 269

PRAIN, C. J. and ROSS, C. A. *Trypanosoma congolense*: interactions between trypanosomes expressing different metacyclic variable antigen types *in vitro* and *in vivo* 277

MCLAREN, DIANE J. and SMITHERS, S. R. Serum from CBA/Ca mice vaccinated with irradiated cercariae of *Schistosoma mansoni* protects naive recipients through the recruitment of cutaneous effector cells 287

FULFORD, A. J. C. and YEANG, F. Analysis of worm burdens in experimental schistosomiasis 303

WHARTON, D. A., PRESTON, C. M., BARRETT, J. and PERRY, R. N. Changes in cuticular permeability associated with recovery from anhydrobiosis in the plant parasitic nematode, *Ditylenchus dipsaci* 317

LASSIERE, OLIVIA L. Host–parasite relationships between larval *Sialis lutaria* (Megaloptera) and *Neoechinorhynchus rutili* (Acanthocephala) . . . 331

LASSIERE, OLIVIA L. and CROMPTON D. W. T. Evidence for post-cyclic transmission in the life-history of *Neoechinorhynchus rutili* (Acanthocephala) . 339

SANCHEZ-MORENO, M., MONTEOLIVA, M., FATOU, A. and GARCÍA-RUIZ, M. A. Superoxide dismutase from *Ascaris suum* 345

Trends and Perspectives
BARRETT, J. The application of control analysis to helminth pathways . . 355

PART 3 DECEMBER 1988

ROSSIGNOL, P. A. and ROSSIGNOL, A. MACKAY. Simulations of enhanced malaria transmission and host bias induced by modified vector blood location behaviour 363

HOLDER, A. A., LOCKYER, M. J. and HARDY, G. W. A hybrid gene to express protein epitopes from both sporozoite and merozoite surface antigens of *Plasmodium falciparum* 373

VOS, G. J., MOLOO, S. K., NELSON, R. T. and GARDINER, P. R Attempts to protect goats against challenge with *Trypanosoma vivax* by initiation of primary infections with large numbers of metacyclic trypanosomes . . 383

CHERNIN, J., MCLAREN, DIANE J., MORINAN, A. and JAMIESON, B. N. *Mesocestoides corti*: parameters of infection in CBA/Ca mice and the effect of introducing a concomitant trematode infection 393

AGNEW, A. M., LUCAS, S. B. and DOENHOFF, M. J. The host–parasite relationship of *Schistosoma haematobium* in CBA mice 403

ROBERTS, SHIRLEY M., BOOT, C. and WILSON, R. A. Antibody responses of rodents to a tegument membrane preparation from adult *Schistosoma mansoni* 425

TINSLEY, R. C. and JACKSON, HELEN C. Pulsed transmission of *Pseudodiplorchis americanus* (Monogenea) between desert hosts (*Scaphiopus couchii*) . . 437

SCOTT, MARILYN E. Effect of repeated anthelmintic treatment on ability to detect predisposition of mice to *Heligmosomoides polygyrus* and *Aspiculuris tetraptera* (Nematoda) infections 453

WHARTON, D. A. and BONE, L. W. The formation of the first-stage cuticle within the egg of *Trichostrongylus colubriformis*. 459

BUNDY, D. A. P., COOPER, E. S., THOMPSON, D. E., DIDIER, J. M. and SIMMONS, I. Effect of age and initial infection on the rate of reinfection with *Trichuris trichiura* after treatment 469

JOSHUA, G. W. P., HARRISON, L. J. S. and SEWELL M. M. H. Excreted/secreted products of developing *Taenia saginata* metacestodes 477

Trends and Perspectives
CHANDIWANA, S. K. Use of ^{75}Se tracer and autoradiographic techniques in the study of schistosomiasis 489

BOOK REVIEWS 503
